Strengths:

- ▶ Customer partnership - Technology
- ▶ Focus on overall business value to clients
- ▶ Industry knowledge
- ▶ Process focus

Our Services

Contract Staffing

Our contract staffing services enable you to fill short-term needs for qualified employees. Companies rely on a temporary staffing agency's contract staffing services to support upcoming projects, meet seasonal requirements and reduce their workforce during slow periods. Hiring individuals on a contract basis allows your company to maintain proper staff levels and retain the talent available today, while reducing employee-related costs.

Contract-to-Hire Staffing

By utilizing SEIN CONSULTING contract-to-hire staffing services, a company can benefit from the traditional services a temporary staffing agency offers with the option to hire the employee permanently. You can observe the employee on the job to determine if he or she is the right fit for the position. After the contract period is complete, the employee can be hired on a permanent basis.

Direct Hire Staffing

Through our direct placement staffing services, SE assumes all responsibility for recruiting and screening candidates so you can focus on your business. By working with a temporary staffing agency such as SE, you rely on professional recruiters with access to a range of recruiting resources to select the perfect employee. Companies rely on direct placement options to increase staff for project-based work, and to grow and replenish their workforce.

We Support

- ▶ **RPO Services:** For most companies, recruiting is not a core competency. Yet, every company must be able to effectively reach outside its organization to access the talent it needs – including direct hire and contingent labour – to grow its business and serve its customers. US Tech Solutions offers highly-customized recruiting solutions through a flexible engagement model. Our 24/7 RPO service delivery model drives time and cost out of the recruiting process (as much as 15-60% cost reduction), providing you with faster time-to-hire and best-fit talent – when, where and how you need it.
- ▶ **Global RPO :** Global recruiting function deployed and managed across local markets in a fully integrated recruitment process outsourcing program including direct hire and contingent labour.
- ▶ **Project Based RPO:** End-to-end recruiting solution deployed for a specific mission-critical initiative.
- ▶ **Co-Sourcing RPO :** Sourcing-specific solution deployed in conjunction with the client recruiting team.

Save time, save money, improve your process – and get the talent you need!

**For a more consultative, flexible approach to managing your hiring needs across the globe,

Post-Application

How We Do It

People:

- Large teams of experienced professionals: 10+ recruiters / 3 business managers
- Full fledged back-office for HR/people management- all done in-house
- Very low levels of attrition in in-house teams

Process Technology

- SLA measurement – metrics driven processes
- Regimented use of step-by-step processes in sourcing and recruiting to ensure consistency in delivery.

Infrastructure:

- Established delivery center at Plot No: 876, Road No: 45, Jubilee Hills, Hyderabad, Telangana, India.
- Deployed fully automated tracking systems from sourcing to billing to payroll & benefits
- Invested in large recruiting sources to fill pipelines of candidates
- Finally: our clients teach us – the sheer experience of working with some of the best firms built best practices at SEIN CONSULTING PRIVATE LIMITED.
